## As 1947 Fades Into History

### Government Officials Extend New Year's Greetings To All

HON. J. C. BOWEN  
Lieutenant-Governor

Our custom of hailing friends on the first day of a New Year with the salutation "A Happy New Year" is a very kindly and wholesome practice, indicating a community spirit in which the welfare of each member is mutually desired.

HON. W. A. FALLOW  
Acting Premier

While the passing of 1947 will have many disturbing problems on the threshold of 1948, if we have learned the lessons which humans really and error have taught us, we will approach those problems in the quiet confidence which comes to those who acknowledge their complete dependence upon the all powerful and all sufficient source of wisdom and strength which he alone can give.

HARRY ATLAY  
Mayor of Edmonton

Today we open a new book with 366 clean pages. To some extent we are responsible for the entries as we turn each page. Each one carries with it new opportunities and new responsibilities. Each may indicate a step forward to an objective or merely a day to day errand wandering.

## Some Caught, One Shot Dead

### Six Desperate Convicts at Large After Bloody U.S. Prison Uprising

By RICHARD K. O'MALLEY  
CANNON CITY, Colo., Dec. 31.—(AP)—Six of 12 desperate convicts who fled from the Colorado state prison last night in a bloody uprising still were at large today as hundreds of searchers tramped through heavy snows and biting cold in pursuit.

One of the fugitives was slain in downtown Cannon City, a second prisoner was shot in the leg, two persons were severely wounded and four prison guards were badly mauled in 12 hectic hours after the dozen "incurable" convicts fled to freedom from cell block six—the isolation section for the prison's worst.

Two of the youngest escapees surrendered quickly but the other three recaptured, gave up only after being fired upon by guards or beaten into submission.

One of the required convicts, A. B. Tulley, 21-year-old slayer, said reporters he and another prisoner saved their way out and then fled the others. "They saw us all over the joint," he declared.

Werner Schwartzmiller, 35, sentenced for assault on communist leader, was escorted after a court-ordered farm housewife battered him with a claw hammer when he and two other prisoners forced their way into the castle of Mr. Sima, where they spent the night.

The 20-year-old, German, research courier, said he was housed with Dr. Peter Gora, premise of the Communist underground.

## Tariff Changes Made

### Many Imports From U.K. Are Affected

OTTAWA, Dec. 31.—(CP)—Stiff tariffs will be restored on many United Kingdom commodities entering Canada after Jan. 1 as a result of the repeal of the War Exchange Conservation Act.

THE ACT, PASSED IN 1940, made sweeping reductions in tariffs against British goods as the government sought to conserve American dollars by shifting Canadian buying from American to British markets.

When the legislation was passed the government made it clear that it was purely an exchange conservation stop-gap of a temporary nature. Although its date of expiry was postponed several times, a notification was issued this morning, ending the reductions tomorrow.

## Three Are Hurt

### Train-Car Crash

Three High Ridge residents were injured today 6:30 p.m. Tuesday and four others escaped injury when the auto in which they were riding collided with the side of a slow moving train on the highway near Meriville.

L. J. THOMPSON, 47, driver of the car, facial cuts and possible broken ribs.

LORETTA THOMPSON, 17, possible skull fracture and facial cuts.

## DEATHS Recorded Today

Denniff, Bernard, 82, Eddy, Ellen, 80, Golembin, Mike, 78, Lampher, Clara, 75, Lewis, Richard Harold, 70, Osborne, Belinda Rose, 70.

## Hope Fading For Three Men Lost in Arctic

By KEITH HEDGECOCK  
NOME, Alaska, Dec. 31.—(BUP)—A blizzard whirled over the frozen country north of here today, preventing planes and ground parties from searching for two crew members of a crashed B-29 and a daring parachutist who jumped to their aid.

Old timers in the northland abandoned hope for the three men. The mercury stood at 35 below zero and a 30-mile an hour wind swept snow across the area.

The missing men were 1st Lt. Vern H. Arnett, pilot of the B-29; 1st Lt. Frederick I. Sheetz, navigator, and an unnamed parachutist who jumped to their rescue.

Arnett and Sheetz have been missing since they left their B-29, a Superfortress Christmas morning. Indadequately dressed in an attempt to reach the small settlement of Shishmaref, 40 miles north of the crash.

The parachutist has been missing since the day when he was dropped with two companions in a B-29.

## Romanian Royalty To Leave Country

By LEONARD KIRSCHEN  
BUCHAREST, Dec. 31.—(AP)—The Romanian royal family of King Michael applied today for 60 passports to leave this newly-proclaimed "democratic republic."

Michael, who abdicated in a surprise move yesterday, came back with his mother, former Queen Helen, from the royal castle at Sinaia, where they spent the night.

The 20-year-old, German, research courier, said he was housed with Dr. Peter Gora, premise of the Communist underground.

(Continued on Page 2)

## May Take Refugees Direct to Cyprus

JERUSALEM, Dec. 31.—(AP)—The Palestine government announced today that two cargo ships loaded with 15,000 Jewish refugees without visas, now reported en route to the Holy Land, would be escorted directly to Cyprus if intercepted by British naval vessels in Palestine waters.

Heretofore Jewish immigrants trying to enter Palestine in defiance of British immigration restrictions have been landed at Haifa and transferred to British ships for removal to detention camps on Cyprus.

Gross said in an interview that Michael was free to come and go as he pleased. He said that if the 20-year-old, German, research courier, said he was housed with Dr. Peter Gora, premise of the Communist underground.

## What Am I Saying?

By Frank Morgan  
BURLINGTON, Wis., Dec. 31.—(AP)—A satirical story about the demise of a fly in an Oklahoma pool room today was for a Texas the title of world's champion liar, annually bestowed by the Burlington Liar Club.

John Hopley of San Antonio, Tex., told the harrowing story about the last minutes of the fly in a pool room in Tulsa, Okla., as Hopley and his friends.

## GREENS BATTLING TO KICK OUT SA

### Menace "Comes From Without"

### Chiang Kai-Shek Implies Russia Backs Chinese Reds

NANKING, Dec. 31.—(AP)—The Chinese Communist menace comes from without as from within—plainly implying that Soviet Russia is helping the Chinese reds.

"Unless checked," he told his people in a New Year's radio message, "it will cause the downfall of our nation, make any impossible and reduce our people to serfdom."

The reference, first so high a source directed at off-reporter but unconfirmed Russian help, was the Chinese leader's only mention of any foreign influence in China's civil war.

Chiang declared that the main menace to the country comes from without as from within. The Reds are, he said, the real aim of saving Chinese territory into pieces to be handed over to the Communists.

Chiang Kai-Shek and advice to Chinese troops. "Tchinsky said his government recognizes only one government in China—the national government."

## Estimate 80,000-Barrel Capacity

### Leduc Oil Area May Be Canada's Biggest

OTTAWA, Dec. 31.—(CP)—An oil company geologist estimated today that the capacity of the newly-discovered Leduc oil field of Alberta would be 80,000,000 barrels and said it may develop into the richest field in Canada.

DR. T. A. LINK, chief geologist for the Imperial Oil Company, which operates 75 per cent of the field, said an international group of geologists that at present the Leduc field covered 8,300 acres and said this area might be extended further exploration "by half or twice as much."

While he placed production tentatively at 10,000 barrels a acre for a total of 80,000,000, he stated more optimistic operators suggested output might reach 20,000,000.

## Marshall Is Named Man of the Year

NEW YORK, Dec. 31.—(AP)—State Secretary Marshall today was named "man of the year" by Time, weekly news magazine, which called him the "man who had the biggest time in fame during the year, and who, more than anyone else, changed the news for better or worse."

## Plane Missing

ANCHORAGE, Alaska, Dec. 31.—(AP)—A B-29 long-range weather plane is missing on a flight to Ketchikan, Alaska, from Anchorage, Alaska, United States Army officials reported today.

## Harrowing Tale of Fly's Last Moments Wins Latest Liars' Club Championship

BURLINGTON, Wis., Dec. 31.—(AP)—A satirical story about the demise of a fly in an Oklahoma pool room today was for a Texas the title of world's champion liar, annually bestowed by the Burlington Liar Club.

John Hopley of San Antonio, Tex., told the harrowing story about the last minutes of the fly in a pool room in Tulsa, Okla., as Hopley and his friends.

## Advises Greeks

### Rebel Attack Is Blasted By Artillery

By L. S. CHAKALES  
ATHENS, Dec. 31.—(AP)—Greek Army relief forces pressed within sight today of embattled Konifitsa, where a weary 1,000-man garrison has been holding out since Christmas day against furious attacks by an estimated 5,000 guerrillas.

Military authorities said the juncture of the relieving forces with the garrison could be expected about noon.

Athens press reports said the rebels encircling the city had launched a last desperate assault on Konifitsa and were being pounded by artillery fire.

The bulk of the Greek reinforcements units were reported to be within a mile of strategic Bourgas, where the rebels were predicted to break through the bridge in their retreat, but army engineers already were said to be bringing up fording boats and bridge parts.

## King Victor Buried With Full Honors

ALEXANDRIA, Dec. 31.—(Reuters)—His King Victor Emmanuel of Italy, who died here Sunday, was buried today with the full military honors due a ruling monarch despite his w/ah for a simple funeral without wreaths or flowers.

His widow, ex-Queen Helena, who will be 73 Jan. 4, was ordered by her doctor not to follow the funeral procession owing to her weak state of health.

The ex-king was buried in St. Mark's chapel, within the precincts of St. Catherine's Cathedral. The military funeral was arranged in the evening with King Farouk of Egypt.

## Under United Nations

### Wallace Proposes New European Aid Set-Up

MILWAUKEE, Dec. 31.—(AP)—Henry Wallace, independent candidate for the United States presidency, proposed last night a seven-point "Wallace Plan" financed by all countries "possessed of the means" and administered by the United Nations to rehabilitate Europe.

## Ceiling Removed Raisins, Currants

OTTAWA, Dec. 31.—(CP)—Removal of price ceilings on imported raisins, currants and prunes, effective today was announced last night by the prices board.

The board said bulk purchasing of these items by the Crown-owned Commodity Price Stabilization Commission was increasing some time ago and price ceilings were retained until such stocks in the hands of the grade had been sold.

## No Bulletins New Year's Day

On Thursday, January 1, New Year's Day, no editions of The Edmonton Bulletin will be published.

On Friday, Jan. 2, all regular editions of this newspaper will appear as usual. Full coverage of New Year's Eve and New Year's Day news and activities, along with local and world-wide news that will be presented in Friday's issues for Bulletin readers.

(Continued on Page 2)

## World Art Faker Dies in Hospital

AMSTERDAM, Dec. 31.—(AP)—Hans Van Meegeren, 37, a Dutch artist who fooled some of the world's art experts by faking old masters, died in hospital last night of heart disease.

He was sentenced Nov. 13 to one year in prison on charges of fraud. The prosecution said he had signed the names of such old masters as Vermeer and Pieter de Hooch to his paintings and sold them for approximately \$2,000,000.

## HOW SMART ARE YOU?

How smart are you? In January's Reader's Digest are 3 of the sort of problems psychologists use to determine aptitudes and abilities. Try these tests. They're fun to do if you don't worry too much how you come out... and may help you find out if you're as smart as you always thought you were.

(Continued from "The Test")

## Wallace

(Continued from Page 1)

used exclusively for peaceful purposes and no money shall be available to finance the purchase of military supplies, armaments or war preparations."

1. The German industrial heartland in the Ruhr Valley to be placed under international administration and control by the Big Four in order that its resources may be made available to aid in the reconstruction of Europe and "to guarantee that Germany shall never again be in a position to threaten the security of the world."

Wallace said he originally favored the Marshall Plan but that in the present form there are "fatal differences."

The Russians certainly aren't blameless for the cold war, he continued, "but even if we should accept every charge made against the Russians it does not excuse an American policy which runs contrary to American principles."

WE MUST REAFFIRM our faith in the UN. It cannot succeed if the most powerful nation in the world destroys confidence in the principle of world organization and operations in direct violation of that principle.

"We propose a plan that will effectively define words spoken by Secretary Marshall at Harvard last June, not a plan whose deeds contradict those words."

Many thousands of dollars are being poured into the UN. Send in your contributions. Send in your contributions. Send in your contributions.

## No Crackpots Wanted by Science

## V-2 Can Carry Man 100 Miles Up Only Trouble Is to Find Rider

By PAUL F. ELLIS

CHICAGO, Dec. 31.—(BUP)—A navy scientist said today that it was possible for a human to ride in a V-2 rocket, but the trouble about the earth, and that "several" people had volunteered to take such an unprecedented journey into the interests of science.

DR. THOMAS J. KILLIAN, science director of the rocket research division of naval research, said that all the offers from persons to take the first ride in a rocket had been turned down.

He said, however, that such a flight was "entirely possible" and that those who had written asking for the chance, wanted to be sure they would get a chance to go.

"The big problem," Killian said, "would be just that—getting a rider out of the rocket before it crashed into the earth. However, it could be done."

Little man to report on rocket to the annual meeting of the American Association for the Advancement of Science, said there were ways to slow "the rocket's" speed while by parachute or a series of parachutes.

He said also that it might be possible to make a rocket that would be able to land on a ship, to the technique used by airplane pilots.

THE VOLUNTEERS so far, he disclosed, have appeared to be sincere—not persons with suicidal intent.

He said that if a volunteer ever was accepted, the flight would last no more than eight or nine minutes. Because of this brief time, Killian speculated that the rocket would not be harmed by the intense cosmic radiation in the upper space above earth. The V-2 rocket is at least 100 miles up in the air.

In one experiment during the last year, an automatic camera was sent up in a V-2 rocket and returned photographs of the earth were taken for the first time at 100 miles above the earth. A great section of the western states was included in the photographs.

ANOTHER NAVY scientist, Dr. Urvor Liddell, head of the nuclear physics branch of the office of naval research, said that the navy, with the American-designed rocket as the Neptune, hopes to explore space 300 miles above the earth. The test, he and Killian said, may be made during 1948.

Both Killian and Liddell said, however, that it would not be necessary to send a human aloft, as the "delicate instruments used so far have been able to do the job."

Prison Break

(Continued from Page 1)

way into his home. The other two escaped.

L. FREEMAN, 22, convicted kidnapper, was caught west of Canon City when guards shot him in the leg.

Warden Roy Best described those who broke out of the penitentiary as "all bad hombres—the worst we have in prison."

Mrs. Minnie Higgins, 22, wife of a prison farm caretaker, was reported in critical condition from loss of blood from three deep head wounds suffered when two of the felons appeared at her farm seven miles east of Canon City, and bludgeoned her into unconsciousness.

Best said the two convicts, one of whom was wearing a prison guard's uniform, had escaped after officers reported at first they had surrounded the pair in the farm house.

THE PRISONERS locked out against Guard A. C. Clark when he unlocked the cell block and "sing" in it at 5:30 last night. Knocking Clark senseless with an iron pipe, the convicts turned on four other guards as they ran to his aid.

Guards along the north wall held their fire for fear of harming their fellow workers and the convicts battered open the gate, fleeing under cover of a blinding snowstorm.

Within minutes after the break, police received reports of four cars being stolen. However, all were recovered within a few hours and the prisoners and fugitives were believed on foot now.

John Klinger, 43, convicted robber, was taken a final effort before midnight in downtown Canon City south of Larkspur, the penitentiary when he tried to flee from city police officers.

Greek Fighting

(Continued from Page 1)

"We have, make a final effort before midnight in downtown Canon City south of Larkspur, the penitentiary when he tried to flee from city police officers."

IN ANOTHER message, to the 19th brigade, which is defending Komitina, Gen. Katsouris said: "By authority of the king, I award all wounded officers and men the Military Cross."

Authoritative military sources repeated their belief that the danger to Komitina was past and disclosed that Greek forces in Epirus numbered 12 battalions of slightly more than 5,000 men.

Rebel losses in the immediate Komitina area were estimated at 250 dead, 600 wounded and about 100 captured. The wounded were being taken to Albanian hospitals, military sources said, and one official report said several sections of the attacking rebel force were retreating toward Albania, five miles north of Komitina.

OFFICIAL REPORTS said a column of trucks had been sighted bringing Albanian troops from Lashon, near the Komitina bridge, one of the key military points in the defense of Komitina.

## Great While It Lasted But The Bubble Broke

VANCOUVER, Dec. 31.—(CP)—A film, pseudo-Hollywood promoter, man, who gave police the slip yesterday, said he would get a super-duper movie made in Hollywood, "promoted" British Columbia.

It was great while it lasted and it was a bubble, said a Keystone comedy.

Monday night a bid, dagger little man, a Vancouvier club named himself as "Frank Capra Jr."

He said that it might be possible to make a rocket that would be able to land on a ship, to the technique used by airplane pilots.

THE VOLUNTEERS so far, he disclosed, have appeared to be sincere—not persons with suicidal intent.

He said that if a volunteer ever was accepted, the flight would last no more than eight or nine minutes. Because of this brief time, Killian speculated that the rocket would not be harmed by the intense cosmic radiation in the upper space above earth. The V-2 rocket is at least 100 miles up in the air.

## Three Men Lost

(Continued from Page 1)

denne fog near the scene.

The bodies of the other two parachutists were located yesterday by local pilots Bill Niemi and Frank Whaley. Niemi and Whaley were the pilots who two days ago parachuted as survivors from the chartered wreckage of the plane 100 miles north of the town.

"EVERY MAN in our rescue group, despite proper clothing, suffered from frost, chills and fingers numb," Niemi said. "And we were out in that weather only six hours."

"I don't see how the pilot and navigator in their thin clothing and shocked and burned condition could possibly survive this."

All the survivors were taken from flash burns when their plane exploded and burned. They were resting today in an Anchorage hospital.

Romania Royalty

(Continued from Page 1)

Michael wanted to go abroad he probably has personal reasons, blinding at the reported romance of Michael and Danish Princess Anne of Bourbon-Parma.

Official Swiss sources said they expected that Michael would enter the service of the king of Denmark in Copenhagen that she had received no direct word from Michael. He was said to be in the Romanian throne. She went back to Denmark after meeting with Michael and his entourage recently from London to Switzerland.

Michael planned to return to Mt. Sinai to spend New Year's Eve with his mother.

Parliament meanwhile was summoned into session to launch the work of drafting a constitution for the "democratic republic" of Romania, proclaimed by the Communist-dominated cabinet immediately following his abdication.

By TOM WILLIAMS

LONDON, Dec. 31.—(AP)—Political rather than romance was behind the abdication of King Michael I of Romania, in the opinion of most observers here.

Dimitri Diamantescu, former Romanian embassy official, said the Romanian government had refused to allow Michael to marry Princess Anne of Bourbon-Parma, but that this was a "purely secondary consideration."

Some of the press on the continent, however, leaned to the view that the king's love for the Danish Princess was the principal reason for his decision.

Michael was debating abdication with his mother, Queen Helen, during their recent visit to London for the wedding of Princess Elizabeth to Prince Philip, and may have decided even before leaving on his course.

"He did not want to go back," a reliable source reported, "and his mother did everything possible to dissuade him from going back. But he made a noble gesture, and his decision has been cowardly not to return."

The London Star said Michael conferred here with both Foreign Secretary Bevin and former Prime Minister Winston Churchill and received sympathetic advice "on a personal basis."

## Give Three Reasons Canada Austerity

NEW YORK, Dec. 31.—(CP)—Canada's austerity in her attempts to solve her financial crisis, by ensuring that the Canadian dollar is at par with the British pound, is a term credit.

1. "Canada also had a contentment. The Dominion, in an effort to help Britain recover, and set her feet at too low a price, term credit."

# Outcome of Three Probes Awaited

## 1947 Was Year Of Importance In Provincial Administration

As the year 1947 draws to a close, the Alberta government is awaiting reports from three probes and further announcements on other important issues will be made soon after close of the festive season.

ONE of the investigations is being made by a Royal Commission into activities of the provincial welfare branch of the provincial welfare department. Chief Justice W. R. Hovell is the Alberta supreme court is heading the commission. He is supported by Judge J. H. McDonald of Calgary and Judge E. B. Feir, Lethbridge.

Decision to select a commission to enquire into the work of this branch was hastened by publication of a report by Dr. J. A. Whittom on behalf of the provincial CIO, and by a series of newspaper articles.

Up to the end of the year, only one witness, an American Army officer, had appeared on the stand on behalf of the child welfare branch. Time of the commission was occupied up to that time with submission supporting contentions of Dr. Whittom's report. The investigation was adjourned for the holiday season and will sit again early in the New Year.

No report has yet been received by the provincial health department from Dr. C. M. Hinks, of a national mental health organization, who has promised conditions in Alberta's mental institutions.

In the 1947 session of the Alberta Legislature, W. J. Williams, MLA for Edmonton, had urged that a commission be appointed to investigate Alberta's mental hospitals. A motion that a commission be appointed to conduct the probe was defeated in the Legislature.

ARTICLES in a national magazine had alleged there was much to be desired in Alberta's care of the mentally ill and Mr. Williams quoted freely from them and from other sources as he called for the probe. The government estimated his motion, but later in the year announced appointment of Dr. Hinks as investigator.

A third formal report is expected to be ready in time for the 1948 session of the Legislature, which will open on Feb. 2. It will be the story of provincial-municipal relations, particularly on the division of taxation and responsibility as gleaned from all over the province by J. W. Ross, deputy minister of municipal affairs, who was made a one-man commission to hear submissions from municipalities and interested parties and to report on them.

A non-partisan legislative committee headed by Dr. J. L. Robinson, Social Credit member, for Medicine Hat, spent weeks hearing submissions on suggested amendments to the Alberta Workmen's Compensation Act, which is to be opened for revision next year. Labor groups requested that compensation pay be raised to equal employment pay, and that the three-day waiting period before returns are made be eliminated.

Industrialists took the stand that most of the terms of the Act were sufficiently generous without amendment. The report is now being debated and will be tabled soon after the opening of the session.

IT IS EXPECTED that announcement of a new contract with O. B. Laurier of Chin, in connection with a land-clearing project at Wabamun, will be announced soon after the New Year.

Work began on the land early this spring and in the fall Harper Prouse, Army member of the House, drew the names of veterans who were to settle on the first 10,000 acres of the project cleared and broken.

However, at the end of the year, none of the returned men had moved onto the land and work on the project was at a standstill.

Mr. Laurier, who was awarded the contract, withdrew his machinery and stopped work on Oct. 30 on learning that his credit with the Alberta Treasury Branches had been exhausted.

It was thought clearing on the Wabamun site might be carried on during the winter months, but the government has continued negotiations with Mr. Laurier. It was felt, just before the close of the year, that mutually satisfactory terms might be arrived at which would permit Mr. Laurier to continue work on the 10,000 acres yet to be cleared and broken.

THE GOVERNMENT had issued a statement of claim against the contractor, but had served notice of default of contract on him.

Statement of claim for \$500,000 has also been filed by the government against Oil Sands Ltd., to recover the amount of public funds expended in the construction of a pipeline to take possession of the plant.

Work was proceeding under government guidance at the plant, which is designed to explore commercial possibilities of extracting petroleum from the north oil sands.

No defense had been filed by the company in this action, it was learned.

The government, during the summer, authorized by order-in-council a further \$225,000 to complete work on the plant. Of this amount, an interim financial statement issued in November showed that \$130,000 had been spent to the end of September.

Further action on the statement of claim may be expected after the New Year.

Just before the session closed the Alberta Automobile Accident indemnity Act was passed. This Act provides for payment of hospital accounts and damage liability to a certain amount for each accident in which a motor vehicle

# Its Tough Going For Jacklighters

QUEBEC, Dec. 31.—(CP)—The men who lure moose and deer to danger with dazzling electric beams played husband-and-wife with Quebec game wardens during the last year, but officers report are expected to show more restraint in 1948.

During the hunting season, the men who lure moose and deer to danger with dazzling electric beams played husband-and-wife with Quebec game wardens during the last year, but officers report are expected to show more restraint in 1948.

# Many Civic Developments City Transit System Forged Ahead In 1947

Extension of Edmonton's transit system was of major importance in the civic picture for 1947. During the year just ending, the transportation system extended 124 streetcar miles to Jasper Avenue and along 124 street. This was the third important step in the gradual transformation from street car operations to a full trolley-and-motor-bus system.

Other important events occurring during 1947, which affected civic administration, included the following:

The five-day week with the street car home pay was inaugurated for all civic servants with the exception of the fire department.

The two-year term for mayor was established at a plebiscite in the November municipal election. Mayor Henry Ainlay was elected first mayor in the city's history to be elected for the two-year term.

HARNESS rejected a proposal to

# No Use Being An Early Bird

NEW YORK, Dec. 31.—(AP)—Even the earliest bird can't get worms under New York's record 25th snowfall.

As a result, the American Society for the Prevention of Cruelty to Animals yesterday urged New Yorkers to spread crumbs or seeds on window-sills to save the city's winged population. The ASPCA already has distributed several hundred pounds of birdseed in snow-covered parks.

Expenditures of \$1,700,000 to extend the generating capacity of the power plant was authorized. It is estimated that \$1,000,000 of this amount will be spent in 1948.

A new water treatment plant, costing \$1,271,000, was completed. This plant will be put into operation next spring following tests.

Purchase of telephone equipment which would give 4,700 lines in the city's exchange was approved. Cost of the equipment is estimated at \$486,314. Approximately 2,200 of the lines will be installed in 1947.

NEW COLLECTIONS for 1947 will be approximately \$20,000 in excess of the amount collected in 1946, but revenue from tax sale

No New Scandals In Traders Lists

WASHINGTON, Dec. 31.—(AP)—A new list of 3,211 traders in wheat futures was issued yesterday by Clinton Anderson, secretary of agriculture, but none was identified as a public official.

The list the fourth made public by Anderson—including 1,914 persons who were reported to have been speculating, 214 who were engaged in non-speculative hedging or "price protection" operations and three foreign commission houses. The list was said to include all traders who held wheat futures on the Chicago Board of Trade on Feb. 28 this year.

Congressional authorization for publication of the names grew out of charges by Harold E. Stassen, candidate of the Republican party, of identical nomination, and others that "governmental agencies have been speculating and making profits on the strength of inside information on government food buying policies."

In 1947, more than 5,000 names were disclosed to date, only three have been prominent public officials. They are Edwin W. Taylor, special assistant to the secretary of the Army; Brig. Gen. W. H. Graham, President Truman's personal physician; and Governor H. B. Hootch of Utah.

May Change Mind

MANILA, Dec. 31.—(AP)—Evangelina De Castro, 17-year-old Miss Philippines who appeared at the Miss America contest in Atlantic City last summer and who has been feuded since since her return, announced yesterday she would become a nun. "I am bored with social life and so many dances," she said.

## John H. Hanna Dead at Calgary

John H. Hanna, retired secretary of the Calgary Board of Trade, died in Calgary Tuesday night.

The 80-year-old was born in Toronto, Ont., in 1867. He moved to Calgary in 1908, establishing a clothing business the same year. Mr. Hanna was secretary of the Calgary Board of Trade from 1910 until his retirement in 1941.

He is survived by his wife, one daughter, Mrs. J. S. Horne, one son, J. J. Hanna, all of Calgary; one son, C. W. Hanna, Edmonton; and one son, F. G. Hanna, Peace River.

Funeral arrangements will be announced later.

## CCF Nominates 20th Candidate

Alfred Rande, Alliance farmer, has been named CCF candidate for provincial riding of Sedgewick. It was announced last Wednesday.

Mr. Rande's nomination relates to the 20th number of candidates placed for the next provincial general election. The Sedgewick constituency was held Monday.

Four CCF nomination conventions are scheduled for January. They are Okotoks-High River, Jan. 2; Bow Valley-Emeryville, Jan. 12; and Red Deer, Jan. 13. Edson riding will name its candidate Feb. 28.

## City Student Wins IOE Scholarship

Ronald Ralph Jelski, 1550 99 street, a graduate of the University of Alberta has been awarded the 1942 IOE Memorial post-graduate scholarship (overseas).

Mr. Jelski attended Eastwood High School, and graduated in 1940 from the University of Alberta in Arts. He has worked the same year and served overseas until 1940.

Following his discharge from the service in 1940 he re-entered the University of Alberta and graduated with the degree of Bachelor of Education in the spring of 1941, with first class general standing. He was the university honor student of the gold medal.

Mr. Jelski plans to leave for Cambridge University next fall. He will pursue studies in English languages, with emphasis on French and Spanish. He hopes to obtain his doctorate overseas sometime at the Sorbonne.

## Sacred Leader Has No Comment

OTTAWA, Dec. 31.—(CP)—The Union of the Social Credit party, Solon Low, said early today that he had no comment on the case of John Blackmore, member of the party for Leithbridge, who has been excommunicated from the church of the Latter Day Saints on grounds of his views on plural marriage.

The excommunication came at a charge that Mr. Blackmore was "treating and advocating the doctrine of plural marriage contrary to the present teaching of the Church of Jesus Christ of the Latter Day Saints." Mr. Blackmore later stated he had done no wrong, had not advocated plural marriage, practiced it, and that he had "merely defended the doctrine of plural marriage at a public trial."

Mr. Low, who is reported by Mr. Blackmore as Social Credit leader, said he had read the records of the case, but did not wish to enter the controversy. He would have no comment, at least until he had further information on the matter.

LEITHBRIDGE, Alta., Dec. 31.—(CP)—John Blackmore, a Credit member of parliament for Leithbridge whose 45th anniversary from the church of Latter Day Saints was announced last week said yesterday he would have no details "because it would affect so many people."

He said the excommunication came as "shocking surprise" and "I haven't been able to figure out what the whole thing is about."

**\$176,920 Diamond**  
WASHINGTON, Dec. 31.—(AP)—The 44-carat Hope diamond, one of the world's most famous jewels, was valued at \$176,920 in an inventory appraisal of the estate of Mrs. Evelyn Walton McLean who died last April. Another diamond, the Star of the East, was given a higher valuation—\$185,000.

## I Saw Today

R.A. "BOB" ANDERSON extending New Year greetings to friends at the Legislative Building.

Harry Nixon heading west on Jasper avenue; Arthur Young driving down downtown street; Herb Nixon near the CPR station; Donald Rose heading a 125 street bus; "Sparks" Edgar twirling ladies on his latest radio set; and Johnnie Lang busy over the shop where the use of a gun.

## Rob Laundryman At Gun's Point

CALGARY, Dec. 31.—(CP)—Threatened by two young hold-up men, a Chinese laundryman was robbed of \$100 in his downtown shop shortly before 11 o'clock last night.

Wong was working in the front of his shop where two men walked in, and one showed a revolver into the laundryman's back saying "get into the back there."

The Chinese was forced into the back of the shop where the two men, who were armed with a gun, demanded all his money. "Hand over your money," they said, pointing a gun into Wong's stomach.

The laundryman reached into his trouser pocket and brought out approximately \$100.

The men left through the unlocked front door and apparently ducked down an alley to disappear.

## Hundreds Military Aircraft Converted

Several hundred military aircraft have been converted for civilian use in Canada and foreign countries during the past two years, according to a report today.

Mr. H. H. C. Smith, president of the Canadian Aircraft Manufacturers' Association, said that the conversion of military aircraft for civilian use is still being carried out by the government.

The company recently delivered an Anson twin engine converted into a private plane. It will replace two single-engine machines, formerly operated by the government.

Prices to buyers range from \$100 to \$1500 with the Anson being the popular choice. Anson cost about \$800 to build during the war years.

Mr. Kershner said there is still a brisk demand for converted aircraft for use in the north. The American coast here, and ended two years of trials in which 1,249 persons have been tried and 169 found guilty.

The Kershner firm also has the agency for the new Canadian De-Havilland Beaver plane that sells for \$50,000.

The Ottawa plant employs about 35 persons.

Fingerprinting was first used in the United States in 1902 by a geologist who used his thumbprint to prevent forgery of commodity orders for an expedition.

## New Radio Sets To Aid City Police

The installation of frequency modulation radio sets in police prowler cars, mentioned Tuesday by Chief Constable Rex Jennings, will put equipment of the city force on a par with that of forces in the larger cities. The radios will bring the police force up to a modern standard on radio news.

Under the new system it will be possible in cases of emergency for one car to communicate with another. Under the present system only one car can be heard by the station and car. Perhaps the biggest advantage of the new set will be the clearness with which calls can be received. Installation is expected within the next six weeks.

## City Takes In Sub-Division

The Pleasant View sub-division on which 130 veterans' homes have been erected under the Veterans Land Act will be taken into the city Jan. 1 under an order issued Wednesday by the Board of Public Utility Commissioners.

Request for inclusion within the city limits was made several months ago by veterans resident in the sub-division. Negotiations between the city and municipal district of Strathcona followed, and an agreement was reached between the two municipalities for the annexation to the city of the sub-division.

The agreement now has been confirmed by the Board of Public Utility Commissioners. Under the terms of the incorporation agreement, tenants in the sub-division will pay the same rate of taxation of 35 mills, which is nine mills less than the rate prevailing in the Strathcona municipality.

Also annexed to the city under the board's order is the Mount Pleasant cemetery property, and about 12 acres of subdivided land owned privately.

The Mount Pleasant cemetery was taken over by the city early this year, and has been operated by the city parks department since acquisition.

The property taken into the city is approximately 500 acres in area, and the assessed value of the property is \$138,500.

## Owner in Trouble Over Barking Dog

BOSTON, Dec. 31.—(AP)—A feud between a golden collie and a silver fox dog broke up a party in West Roxbury district court yesterday.

Mrs. Helen Calhoun said Judge Andrew Macdonell that every time she and her fur piece passed the barking dog of William Ginsburg, the latter would bark "in a most menacing manner."

Ginsburg replied his dog was on the best of terms with hundreds of persons who daily pass the store and suggested the animal probably would like Mrs. Calhoun, too, if it met her apart from the neck warmer.

The judge fined Ginsburg \$25 on a charge of keeping a barking dog and told him "you can't put a woman on a leash because she wears a fur neck piece."

The fine was remitted after Ginsburg confessed in which Ginsburg agreed to fence in the dog.

## Nazi Commandant Sentenced to Death

BACHMANN, Germany, Dec. 31.—(AP)—Hans Mosser, commandant of a Nazi concentration camp, was sentenced to death by a United States war crimes court yesterday.

The court sentenced Mosser to death on a charge of having killed 15 persons in the concentration camp.

The court sentenced Mosser to death on a charge of having killed 15 persons in the concentration camp.

## Year-End Statement

## President Of CPR Reports On Services

MONTREAL, Dec. 31.—(CP)—The Canadian Pacific Railway intends to continue rendering the services to the nation for which it was established but it must be realized that this can be done only to the extent to which it is possible to provide them on a sound economic basis.

W. M. Neal, C.R.E., chairman and president of the company said in a year-end statement today.

Mr. Neal, with all other Canadian corporations and with all Canadian individuals, the CPR during 1941 was faced with and is still facing steadily increasing need of material and wages, he said.

There are no indications that this particular trend will change in the immediate future. In fact, there are indications that this up-swing will continue in 1942.

Increases in costs which were laid before the Board of Transport Commissioners early in 1941 have been aggravated since then.

Demand for payroll increases which are excessive, if accorded, to would add over \$600,000 to the annual expenses of the company. It is an added expenditure that the company cannot possibly meet with present revenue conditions.

THE FULL THIRTY per cent increase in freight rates which the Board of Transport Commissioners in 1941 have been agreed upon would not come near meeting it.

Mr. Neal praised the "preliminary" report of the government to develop a flow of suitable immigration to Canada. The Canadian Pacific had purchased the former German liner Huisman which is being refitted and which will be used to carry immigrants to this country each trip in 1942.

The Canadian Pacific fleet is being re-established as a major Atlantic carrier. The Empress of Canada is already in service and will be joined next spring by the Duchess of Bedford which is being converted into the Empress of Scotland.

FOUR FAST CARGO liners are being built to handle 2,500 passengers and cargo ships complete the Atlantic fleet.

A plan for further expansion of the Canadian Pacific fleet includes a passenger liner to be built which will permit building on a sound basis. Mr. Neal said, although two ships are now being completed in the United Kingdom for the British Columbia coastal fleet.

In the railroad field, the CPR placed orders during the past year for \$400,000 worth of equipment to assist in the maintenance of freight cars and motive power to speed the movement of Canadian products for export as well as to meet domestic needs.

The Canadian Pacific is carrying exhaustive tests with diesel locomotives to determine whether diesel power can be used efficiently under Canadian conditions. A Canadian Pacific subsidiary, the Esquimaux and Nanaimo Railway on Vancouver Island is using diesel power exclusively.

"CANADIAN PACIFIC Air Lines, practically a network of north routes, maintained its position in 1941 as one of the important air passenger and cargo carriers."

A new route opened was that from Vancouver through the Okanagan and Kootenay valleys to Calgary. The company covers 5,500 miles of licensed routes.

Mr. Neal mentioned the long study of the waterfront situation at Nanaimo, B.C. which has resulted in the drawing up of plans for a land and sea terminal at that point to be used by ships, trains, buses, freight trucks.

Philosopher Dies  
CAMBRIDGE, Mass., Dec. 31.—(AP)—Alfred North Whitehead, 80, internationally known philosopher, died Tuesday of a cerebral hemorrhage. He was professor of mathematics emeritus at Harvard University.

Mr. Neal mentioned the long study of the waterfront situation at Nanaimo, B.C. which has resulted in the drawing up of plans for a land and sea terminal at that point to be used by ships, trains, buses, freight trucks.

Mr. Neal mentioned the long study of the waterfront situation at Nanaimo, B.C. which has resulted in the drawing up of plans for a land and sea terminal at that point to be used by ships, trains, buses, freight trucks.

### The Outlook

"Demand is still running ahead of supply." The basic factor in shaping conditions in Canada is this singular one in the year-end summary issued by the Bank of Montreal. The governing fact in the situation could not be better stated.

It is this state of unbalance between demand and supply that is causing prices to rise, bringing demands for higher pay, inspiring appeals for the reimposition of controls, filling people with dread, obscuring the advantages of the national economic position, creating a pessimistic outlook.

But why is demand running ahead of supply? It is not because production is at low ebb. The over-all volume of production is away beyond pre-war levels. Never before were so many Canadians engaged in growing things and making things and getting out materials from the forests and mines. Even in wartime the army of producers was smaller than it is now, because there hundreds of thousands of men and women were in uniform, whereas now they are at work.

Unusual demand, not sub-normal production, is causing the trouble. The deferred demand in Canada is enormous, a hang-over from wartime. The new civilian demand is also enormous, created by the reimposition of hundreds of thousands of new homes. The demand from abroad is simply immeasurable. Outside this continent, and perhaps Soviet Russia, there is not a country in the world where Canadian products of some kind could not be sold in quantities that would be profitable.

No country is better situated than Canada to supply the world need for a wide variety of commodities, running all the way from timber and minerals to farm products and manufactured goods. The question of markets hardly enters into the calculation in respect to any important necessity or luxury which can be produced in the Dominion economically. The problem is not where to sell, but how to fill the orders which pour in from all directions.

This is an opportunity which Canadians ten years ago fully appreciated. But it is here, challenging us at the threshold of 1948. What more could we ask for?

### Drinking and Driving

One need not be among those who place moral leprosy and New Year wassail in the same dismal category, to view with considerable alarm some of the consequences of unrestrained celebration at this time of year.

If, overwhelmed by the exuberance of the occasion, a man chooses to enter the year of grace 1948 with a thumping head, a heaving stomach and a mouth-taste like over-egg, all this is doubtless his own regretful business.

But it is also his business, his solemn and sacred business, to see that no one else suffers from his indiscretions.

This is particularly true in the case of those who drive motor cars. Every New Year's Eve there is a mad dash throughout America and throughout all parts of the world that use or misuse our calendar, hundreds of innocent persons depart this life violently at this season because of the mistaken notion of celebrants that alcohol and gasoline will sweetly mix.

Alcohol and gasoline will not mix. Drinking and driving will not mix together.

The drunken drivers who kill people on New Year's Eve are not criminal types. They are usually not confirmed drunkards. Ordinarily, they are kindly and decent and careful persons and their cars are as carefully driven as anyone else when their senses return to normal and they realize that they have not only ruined the New Year for themselves, but have brought dark tragedy to some family.

For a happy New Year, keep gasoline and alcohol strictly and completely apart.

### The Royal Appeaser

The world sheds few tears for Victor Emmanuel III, once King of Italy, who at the age of 78 is dead in his exile in Egypt.

There have been worthy and notable figures in the princely House of Savoy. Prince Emmanuel III, however, was a contemporary of the Emperor Charles V, was 65 years old. But the family as a line has not been distinguished for worth or nobility.

Indeed, the choice of Savoy as a reigning house over newsworthy Italy in 1917 was a surprise to many who did not know that the election of a mediocrity, rather than a strong royal figure, was a deliberate attempt to keep power in the hands of the stronger revolutionary figures.

Savoy was chosen as a compromise. And

compromise has been a tradition in the family. Victor Emmanuel's eventual fall was due to his compromise with the evil Mussolini. Even then his cowardice and indecision might have been overlooked had he permitted Mussolini to go to his doom. But he allowed the strutting Fascist parvenu to reign as king, and kings who cannot at least to some degree be compromised are doomed.

Victor Emmanuel endeavored to "appease" evil. The appeasement of evil leads only to disaster—as the world has extensively discovered.

### Selection Is Necessary

A London report states that 100,000 persons left Britain during 1947 to make their homes in the dominions and colonies. This is the largest exodus since 1929, and falls not far short of the figures for that year.

The important question arises: From what diseases are the migrants being drawn? That is important solely to the emigrants, to Britain, and to the countries to which the streams are moving.

Britain is short of man-power, on farms, in factories, in mines. So short that people who have been engaged in less vital occupations are being drafted into these essential fields of employment. It is from these fields that Canada and Australia and South Africa are drawing people? If so, one unfortunate result of the otherwise highly desirable movement must be to slow down the industrial recovery and export-increase that is necessary to recover in Britain.

A similar result must follow if the emigrants come largely from the ranks of prospective recruits for Sir Stafford Cripps' new army of industrial workers. These, too, are people whose productive industry is needed in Britain.

But these are precisely the classes of people who by reason of training and adaptability are most likely to succeed in Canada or other overseas parts of the Commonwealth. Those whom Britain can best get along without are not the types best fitted to find and make use of opportunities in the dominions.

It is to be hoped therefore that discretion, as well as enthusiasm, will be exercised by dominions' officials who are engaged in immigration work in the old lands. Their task is not to be simple at all. There is danger on the one hand of slowing Britain's industrial recovery; and on the other hand of encouraging the migration of people who are not well equipped to fit the different conditions existing in the overseas states.

Ottawa Journal: The statement from the Labor Department that only a few of the 3,300 Polish veterans had failed to renew their agreements with farm employers, or accept new farm jobs offered them, should do much to dispel the rumors of dissatisfaction here. Some adjustment was a natural thing taking into account the large numbers of persons involved. The wonder is that the number who have to be moved about was not larger, considering the intimate relationship between employer and employee in a farm.

The same number of the thousands of others who have come to Canada this year. It is only to be expected that many among them would find it difficult to adjust themselves to changed conditions, to a new way of life and to the language difficulty.

### Looking Backward

From The Bulletin Files

#### 1887: 60 Years Ago

The snowfall last night presented a large turnout to the skating carnival as otherwise would have been the case. The number of spectators was large but the number of costumes small. The girls wore the latest fashion of the period. The boys wore the latest fashion of the period. The girls wore the latest fashion of the period. The boys wore the latest fashion of the period.

#### 1907: 40 Years Ago

Montreal: The CPR steamer Mount Royal was 23 days overdue from Antwerp and is supposed to have been wrecked.

#### 1917: 30 Years Ago

Washington: Credits to the Allies passed the four billion mark Saturday.

#### 1927: 20 Years Ago

Washington: Speculation over the safety of U.S. marines who captured Quail, Nicaragua, from the bandit leader Standish, gripped officials here today following an announcement the force was for reinforcements and hospital supplies.

#### 1937: 10 Years Ago

Roswell: Ranchers were racing at Teruel, where Franco's forces had been attacking, to allow aircraft to capture the city from loyal troops.

R. B. Copple, K.C., retired on superannuation from his position as assistant for the attorney-general.

Chief Justice Mac, after 29 years of service, retired at the age of 78.

Mac's funeral was held on top of the traveller's home in the first game in which the last track browned the field.

## New Chapter in Burma

By LESLIE BISHOP

London, On the fourth day of the New Year, Burma became an independent nation.

Viewed in historical perspective, this momentous event is seen to be the outcome of the movement which produced the new Dominions of India and Pakistan.

There is the difference that India and Pakistan chose to continue their development within the Commonwealth of Nations, whereas Burma has elected to leave the Commonwealth. The reason for this decision are known fully only to the Burmese leaders themselves and the fact that the new nation will be a free one.

It is to be hoped that discretion, as well as enthusiasm, will be exercised by dominions' officials who are engaged in immigration work in the old lands.

The same number of the thousands of others who have come to Canada this year. It is only to be expected that many among them would find it difficult to adjust themselves to changed conditions, to a new way of life and to the language difficulty.

#### Today's Text

On the Lord's day, the Lord is not to be worshipped, nor on the Lord's day, the Lord is not to be worshipped, nor on the Lord's day, the Lord is not to be worshipped.

technical rather than real. As was pointed out in the British House of Commons, during the debate on the second reading of the Burma Independence Bill, the Anglo-Burmese treaty of October 17 leaves her so closely allied with the Commonwealth that it is true to say that we are in a very special relationship with Burma, one that we are not in with any other foreign power. The agreement to accept military missions only from a rotating chamber of states, such as the House of Lords in Britain and the Senate in Canada, is interesting to note that this newest of democratic constitutions envisages the establishment of a second house, a Chamber of Nationalities.

The constitution includes some admirable provisions, aimed at giving every citizen equality of opportunity without regard to race, creed. Some of its other features are open to question but this is not the place for a critical analysis.

But, apart altogether from treaty provisions, Burma will remain linked to the Commonwealth by the fact that we are in a very special relationship with Burma, one that we are not in with any other foreign power.

## Magic Seasons

By HAROLD L. WEIR

As one becomes more and more conscious of the magic of the seasons, the magic of the seasons becomes more and more apparent. The magic of the seasons is a magic that has been with us since the beginning of time.

It should be noted that the magic of the seasons is a magic that has been with us since the beginning of time. The magic of the seasons is a magic that has been with us since the beginning of time.

It should be noted that the magic of the seasons is a magic that has been with us since the beginning of time. The magic of the seasons is a magic that has been with us since the beginning of time.

# WHO WILL BE NUMBER

## Plans Complete

### Edmonton's New Year Baby To Receive Gifts, Welcome

Edmonton merchants already have completed plans for welcoming the 1948 New Year baby in Edmonton—the first one born after midnight on Dec. 31. As in other years, the 1948 New Year baby will receive many gifts.

The 1947 Christmas baby was Janice Holly Fowler, who made her appearance at the General at 8:40 a.m. on Christmas day.

In the past few years, the top honors in the New Year baby race have gone to "little ones" born within an hour after the start of the New Year. Only nine seconds had elapsed in 1945 when a girl was born to Mrs. John Polak, of Calmar, in the General hospital. In 1946, 43 minutes had ticked over on the clock when an eight pound, four ounce son was born to Mrs. E. Powell in the University hospital, and in 1947 David Peter Duma arrived at the Royal Alexandra hospital three minutes after the New Year was ushered in.

Staffs in the various hospitals take great pride in having the New Year baby born in their establishment. The Misericordia hospital leads the race with six New Year baby winners in the past 10 years. The prizes awarded this year

by Edmonton merchants to the first baby and the first baby's mother include cash vouchers, cash donations, a gold locket, free cleaning of clothes, a double boiler, a crib mattress, a photograph, a hat and several other articles.

Usually about eight to 10 babies are born each New Year's day on the four city hospitals. General, Misericordia, Royal Alexandra and University. At Christmas this year, 10 babies were brought into the world. The Royal Alexandra hospital had three, the Misericordia, three, and the General and University hospitals two each.

Some of the Edmonton business places offering presents to the 1948 New Year baby and its mother are The Journal, Edmonton Bulletin, Knowles Jewellery, Edmonton City Dairy, The Darling Hat Shop, The Hudson's Bay Company, Clean-Rite Cleaners, McDermid Studios Limited, Capitol Theatre, H. Kelly and Company, The Corona Flower Shop and Bricker's Children's Shop.

The second and third baby in the 1948 race also will be given at least one present each. Bricker's children's shop is making donations to the second and third children.

## Baby Gifts

The First Baby born in Edmonton after the start of 1948 will be showered with gifts donated by these Edmonton merchants. Each wishes to bring the baby health and happiness.

**KNOWLES JEWELLERY**—Gold-filled Locket for Mother.

## GALS AGLEE : The Simon-Gottell

full blast on the radio—he's never heard anything like it!"

ANSWER TO READER'S QUERY

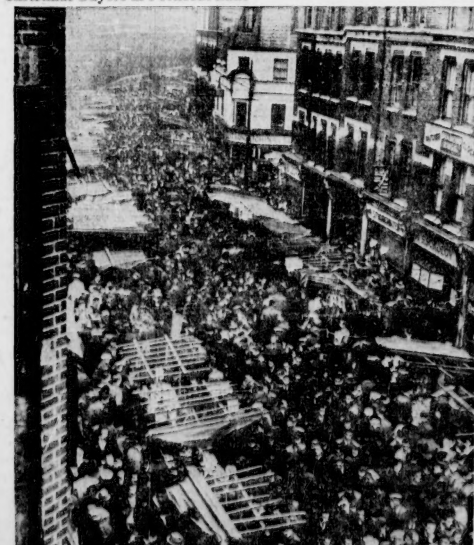

The great atomic "pile," shielded by hundreds of tons of lead and concrete is sheltered in the Pile Building within the gates of the Chalk River plant shown in the background (upper left). At upper right, an operator preparing radioactive isotopes from fission products by remote control is protected by a thick wall of lead bricks. Shown at lower left is a machine used for making the fine quartz threads upon which depends the delicate action of the micro-balance—an instrument which can weigh accurately as little as one ten-millionth of a gram. The micro-balance like some other instruments used, had to be invented and built by the men of Chalk River. Because of the dangers involved, only infinitesimal quantities of radioactive materials can be handled, and instruments used are extremely sensitive, and sometimes very complex like the microscope (lower right) being used in microchemical work with a fission product.

### Wedding Guests Have Crash Landing in Light Plane

"Most harrowing experience" is the description of their forced landing in an open field near Fairgrave, Ont., given by Dorothy Easton and Bernard Sherman, pilot, both of Detroit. Flying to a wedding in Toronto, they had to come down. Bill Burns and Gerald Oliver examine the damaged plane, noted over in snow, undercarriage ripped off.

### Christmas Buyers in Petticoat Lane

Despite the general austerity of the British scene, Londoners still found time and pennies to do their Christmas shopping. Shown above is a crowd thronging famous Petticoat Lane in London's East End completing their shopping at the outdoor bargain counters.

### Hard On Idlers

PARIS, Dec. 31.—(Reuters).—The French government has asked the national assembly to discuss a tax on the capital of "idlers." Pierre Ahelin, secretary of state to the premier, announced yesterday. The proposed new tax on the "idle rich" is part of Finance Minister Rene Mayer's "Social-Right" plan.

### The Party's All Wet

Lifeguards Carl Meiler and Hazel Day hold their New Year's party where the only party crashers would be porpoises or flounders. They're having a party on the floor of Florida's Silver Springs, with no one else to put a damper on the festivities.

### New Year Message From Ottawa

## Mines Minister Sends Greetings To Residents Of Territories

### Northwest Territories

I am indeed glad to avail myself of this opportunity to extend New Year greetings to residents of the far north and particularly to readers of your paper in the Northwest Territories. I have followed with the most intense interest the progress that is being made toward the peaceful development of the resources of this vast region and the rapid strides which are being taken in the improvement and extension of these facilities so necessary for the accomplishment of this task.

The magnitude of the work in which you are engaged becomes apparent at once when it is realized that the Northwest and Yukon Territories embrace all the mainland area of Canada lying north of the provinces and the islands in Hudson and James Bays and northward to the Pole.

At no time in their history has the general development of the Territories occupied such a prominent place as at present. Mining has made significant progress in the last two years and the fur trade continues to occupy its position of traditional importance. Commercial fishing, a more recent activity is being rapidly developed, and transportation by water, land and air is constantly finding new demands for the extension of its facilities.

The department of mines and resources and other agencies of the Dominion government are assisting in meeting the expansion of the principal settlements in conserving forest and game resources, and in providing additional health and educational facilities, highways and airports, and maps and other aids to transportation and travel.

In this and other ways the federal authorities are keeping pace with the growth that is taking place north of the 60th parallel, and conscious of their responsibility, look forward with you to the promising future that looms ahead.

Pravda denied that there was any inflation in the Soviet Union.

### Yukon Territory

I deeply appreciate the opportunity provided for me to send a word of greeting to the residents of the Yukon Territory. The progress that has been made in the Yukon during recent years to restore your basic industries to full productive production has been a source of great satisfaction to me. The adverse effects on placer and quartz mining of the past year's very dry summer season, were in a measure offset by considerable activity in the location of new placer ground, in the staking of quartz claims and by the encouraging improvement in the labor situation.

Of particular importance to residents of the Yukon was the action recently taken by the Dominion government of extending, through the department of mines and resources, financial assistance for reopening up of coal deposits near Carmacks.

This development will not only provide coal for power and fuel requirements in a wide area of the Yukon but will greatly increase the expansion of mining activity and the growth of permanent settlement.

The extensive road program carried out during the past year by the federal government will assist in meeting the expanding demands for transportation. The main highways which would facilitate communication with the out side are being studied with a view to early extension.

The development of the various resources of the Yukon is a challenging undertaking that requires the closest co-operation of all concerned. My wish is that you may continue in experience in large measure, the benefits and the enjoyment of a task well done.

OTTAWA, Dec. 31.—(CP).—George Luskoff of the external affairs department has been appointed chief adviser to Canada's permanent delegation to the United Nations in New York, a government spokesman said today.

Pravda denied that there was any inflation in the Soviet Union.

### Figures Show Less Crime

## Little Increase In Number Accidents Reported In 1947

Despite the increased population and the fact that an additional 2,000 cars were registered in the city during 1946, crimes and accidents do not show a comparable increase and in some cases the figures are lower for 1947.

Chief Constable Reg. Jennings stated in summing up the year's activities for the police department.

HE ADDED that one thing the department is looking forward to in 1948 is the implementation of the present standard type radio by the latest type frequency modulation installation.

This he said is expected to be complete within a few weeks. It will give static free reception and increase efficiency.

Sir Jennings paid tribute to the safety campaigns conducted in the city and to the press for its part in helping keep down accidents.

THE NUMBER of fatal traffic accidents this year exceeded last year's total by one. Thirteen persons were killed in 1947. The number injured, however, was decreased by 72. In 1946 228 persons were injured as compared to 156 this year.

The total number of accidents during the year involving injuries, deaths or more than \$25 damage to vehicles concerned was 1,631. The figure for the preceding year was 1,467.

The revenue from traffic laws passed during the year was \$1,806. Last year's intake was just over \$1,800. Police motor vehicles had their drivers' licenses suspended during the year.

Edmund had a murder free year while the previous year one murder had been reported.

Persons convicted and fined in city police paid a total of \$80,143.31 up to the end of November. A total of 6,347 charges were made out against persons either arrested or summoned to court.

LESS CRIME was reported to the detective department this year as compared with 1946. The figures read: 5,271 cases in 1946 and 1,967 for 1947.

The total arrests made during the 12-month period was 3,616. Value of goods stolen up to the end of November stood at \$25,572.53. The amount recovered by police was \$106,540.70.

With a number of recruits taken on during the year, the police staff now stands at 120 constables and officers.

### Greater Progress Ahead

## United Nations Has Made Progress On Many Fronts

### By MAX HARRISON

LAKE SUCCESS, Dec. 31.—(AP).—Despite the current world tension, the United Nations has pushed forward on many fronts this year and promises even greater progress in 1948 on such vital problems as world health, food shortages and disarmament.

In most cases this progress has been overshadowed by the more spectacular clashes of the non-military fields.

For example, newly children are being fed in over 100 European countries through the International Children's Emergency Fund, established last year by the U.N. These countries are Austria, Belgium, Czechoslovakia, Finland, Greece, Hungary, Italy, Poland and Romania.

Food shipments already have been sent to Albania and Yugoslavia in preparation for the winter. Food shipments will go to France and to several areas in the Far East, including China.

By 1948, 3,500,000 children will come under the feeding program, officials say.

The world health organization, one of the 11 specialized agencies of the U.N., played a major part in checking the recent cholera epidemic in Egypt although it still is operating as an interim commission.

The international refugee organization, during its first six months of operation, has cared for an average of 800-900 persons a month in its placed persons camps in Germany, Austria, Italy and the Middle East. It has also sheltered more than 100,000 orphans.

The food and agricultural organization has sent missions to several countries to help them rebuild their agricultural systems and a furnished experts to several countries on special assignments.

The international bank began its first lending operations, with loans of nearly \$500,000,000 to France, the Netherlands, Denmark and Luxembourg. The international monetary fund made advances to its members a few months ago.

In Romania where inheritance laws allow farm lands to be divided from generation to generation, some farms have been scaled down to the size of Canadian gardens.

## Race Captures Consols

## H. Wolfe's Rink Cops Blue Ribbon In 'Spiel'

"Hank" Wolfe's rink won the Blue Ribbon, premier event in the United Commonwealth Travelers' bonspiel, by defeating Bob McGee's quartet 10-12 in the final round at the Royal rink Tuesday afternoon.

Skip Charlie Rae captured first honors in the British Consols competition with an 18-13 victory over Mel Selter in the final game, also played at the Royal during the late afternoon.

"CHUCK" Taylor, who won in the semi-final 13-11 over Bob Kemp and H. Traudger, who eliminated Percy Clement 12-10 after 23 ends, will meet in the final of the Edmonton Motors at 8 p.m. today.

Pat Rowe is to clash with the winner of Ranson-Pollan game scheduled for 7 o'clock in the last round of the McElbain event.

Gramham Smith and E. A. Austin were to settle the hard luck prize competition at 9 o'clock today.

**BIGGEST ENOUGH**, both semi-final games in the Blue Ribbon competition were won by the winners.

Following are the results:

**BLUE RIBBON**  
H. Wolfe 10-12 B. McGee (final)  
H. Wolfe 13-11 B. Kemp (semi-final)  
H. Wolfe 13-11 B. Traudger (semi-final)

**BRITISH CONSOLS**  
Charlie Rae 18-13 Mel Selter (final)  
Charlie Rae 18-13 Mel Selter (semi-final)

**EDMONTON MOTORS**  
Pat Rowe 13-11 B. Traudger (final)  
Pat Rowe 13-11 B. Traudger (semi-final)

**McELBAIN**  
Gramham Smith 13-11 E. A. Austin (final)

**Hard Luck Prize**  
Pat Rowe 13-11 B. Traudger (final)

**Hard Luck Prize**  
Pat Rowe 13-11 B. Traudger (final)

**Hard Luck Prize**  
Pat Rowe 13-11 B. Traudger (final)

**Hard Luck Prize**  
Pat Rowe 13-11 B. Traudger (final)

**Hard Luck Prize**  
Pat Rowe 13-11 B. Traudger (final)

**Hard Luck Prize**  
Pat Rowe 13-11 B. Traudger (final)

**Hard Luck Prize**  
Pat Rowe 13-11 B. Traudger (final)

**Hard Luck Prize**  
Pat Rowe 13-11 B. Traudger (final)

**Hard Luck Prize**  
Pat Rowe 13-11 B. Traudger (final)

**Hard Luck Prize**  
Pat Rowe 13-11 B. Traudger (final)

**Hard Luck Prize**  
Pat Rowe 13-11 B. Traudger (final)

**Hard Luck Prize**  
Pat Rowe 13-11 B. Traudger (final)

**Hard Luck Prize**  
Pat Rowe 13-11 B. Traudger (final)

**Hard Luck Prize**  
Pat Rowe 13-11 B. Traudger (final)

**Hard Luck Prize**

Pat Rowe 13-11 B. Traudger (final)

**Hard Luck Prize**  
Pat Rowe 13-11 B. Traudger (final)

**Hard Luck Prize**  
Pat Rowe 13-11 B. Traudger (final)

**Hard Luck Prize**  
Pat Rowe 13-11 B. Traudger (final)

**Hard Luck Prize**  
Pat Rowe 13-11 B. Traudger (final)

**Hard Luck Prize**  
Pat Rowe 13-11 B. Traudger (final)

**Hard Luck Prize**  
Pat Rowe 13-11 B. Traudger (final)

## Johnny Black

## Out of Lineup

## For Tomorrow

All Edmonton Flyers with the exception of Johnny Black were out for last night's workout at the arena. The team leaves tonight for Lethbridge where a game scheduled with Maple Leafs is in the offing.

Black, who sustained a back injury, is reported to be coming along nicely, but he is not making the trip to Lethbridge, although he may be ready for Saturday's session with Stammers at Calgary.

**COACH FRANK CURRIE** commented last night that Elmer Krier, who was on the bench, and Billy Maher for the Lethbridge game. Anderson, Ciolekovich and Merlik, and Holmes, Pringle and Smith will be the other two flyer lines.

All four defencemen—Gordon Watt, Pong Wang, Bill Peltier and Bud Johnson—were available. Al Rollins will be in the Flyer net.

**Kramer Triumphs In Straight Sets**

**CLEVELAND, Dec. 31 (AP)—**Big Jack Kramer performed in near perfect style last night and defeated Bobby Riggs, king of the world, 6-4 in a tense, hard-fought first victory in the third match of their transatlantic tennis tour.

The gauntlet 1947 amateur champion and Davis Cup hero never missed with his overhead as he broke Bobby Riggs' service twice.

Cleveland's largest tennis crowd, 5,664 fans, contributed to a gate of \$8,227.

## Burgess Paces

## Saskatoon In Overtime Win

## Kilburn Scores Two

**SASKATOON, Dec. 31 (CP)—**Collar-climbed Saskatoon Quakers dwelling to within two points of the top place in the Western Canada Senior Hockey League last night by defeating Regina Capitals 11-8 in overtime. The loss kept Caps from assuming undisputed possession of first place in the league.

A three-goal overtime spurge gave Quakers their margin of victory in one of the highest scoring games of the season. Their power combination started early, however, midway through the third period when Regina won ahead 6-4.

**SASKATOON** poured rubber at Gerry Foy in Caps nets, counting four goals while Regina scored seven minutes to even the score. In the extra time they continued sweeping ahead without allowing Regina any chance to reply.

Bill Burgess paced Saskatoon with four goals and one assist. Mike Shagha counted twice and assisted on another. Single tons were scored by Bill Montgomery, Joe Livingston, Reg Bentley, Sid Fern and Bill Snyder.

**BILL KYLE**, Joe Fisher and Jim McNeil scored for Regina. A still book-choking Saskatoon with four goals and one assist Mike Shagha counted twice and assisted on another. Single tons were scored by Bill Montgomery, Joe Livingston, Reg Bentley, Sid Fern and Bill Snyder.

**COOK'S GOAL** at 17:24, scored with the help of Kilburn was the game for Regina.

**WETASKIWIN**, Dec. 31.—Wetaskiwin Canadians defeated Camrose Maroons 5-4 in a Northern Intermediate Hockey League game here Tuesday night and clinched even play with Maroons for the runner-up spot in the league standing.

The first period produced fast, rugged hockey with Camrose going 3-1 on goals by Pete Greger, Jimmy McCreedy and Al Barker. Then Applin counted for Canadians.

## Hucklers Down Caps In Goal Binge 11-8

## Girl, 15, Becomes Rival of Mother

AN AMERICAN GIRL, 15 years old, has become the rival of her mother in the field of fashion. Dorothy Dix, a well-known fashion expert, has been so impressed by the girl's taste and style that she has decided to make her a rival. The girl, who is named Dorothy, has been so successful in her fashion sense that she has been able to outdo her mother in many instances. Dorothy Dix has been so impressed by the girl's taste and style that she has decided to make her a rival. The girl, who is named Dorothy, has been so successful in her fashion sense that she has been able to outdo her mother in many instances.

## Why Grow Old?

Are you afraid that you have aged greatly during this past year or a year previous? It is to be feared as Actress Jane Bryan?

By Josephine Lowman  
The fact that I am getting old is a fact which I do not like to admit. I am not a young girl, and I am not a young woman. I am a woman, and I am getting old. I am not a young girl, and I am not a young woman. I am a woman, and I am getting old.

## Historic Skeletons From Alta. Shown

OTTAWA, Dec. 31.—(C.P.)—Two complete skeletons of a dwarf, one of the bones of the cranium, and a number of other bones, found in a rock ledge on Red Deer river in Alberta, were shown Tuesday by their discoverer, Dr. C. M. Stenning, of the Geological Survey of Canada.

Shown at the first meeting of the Geological Association of Canada and the Geological Society of America, the bones of the dwarf skeleton were only three feet long, although their heads were a foot in width. They had all-over-like tails about two feet in length.

They walked on four legs of equal length and stood 18 inches in height.

Dr. Stenning said the diet of these long-necked creatures was probably composed of swamp vegetation, which they obtained with the aquatic teeth set in their powerful jaws.

The most popular site in truck three is 8.25 ft. The size of about 100 per cent of all truck three sold.

Dr. Stenning said the diet of these long-necked creatures was probably composed of swamp vegetation, which they obtained with the aquatic teeth set in their powerful jaws.

## Your Baby and Mine

By Myra Meyer Elder  
In all the many years I have been writing this column I have come to know mothers well, mothers of my own age group, mothers of my children's group, and mothers who have asked for advice.

I have a great appreciation for mothers. Their job is enormous and there are times, with the best of them, when they feel that all they stand for, all they hope to achieve so far, is to be a mother.

What mothers tend to forget is that success, like a plant, does not come all at once. It is a process. Children have to have time to show the stuff of which they are made.

It isn't the meek and submissive child who will someday be the most wholesome and successful person; it is the child who is full of life, who is full of spirit and brains who may have been the "Little Terror" in his youth.

It is not the child who pretends to be a mother, who is full of life, who is full of spirit and brains who may have been the "Little Terror" in his youth.

It is not the child who pretends to be a mother, who is full of life, who is full of spirit and brains who may have been the "Little Terror" in his youth.

It is not the child who pretends to be a mother, who is full of life, who is full of spirit and brains who may have been the "Little Terror" in his youth.

## Thank-You Notes For Christmas Gifts

You're simply carried away by all your delightful Christmas gifts!

Now don't go and ruin the fine holiday by forgetting to write thank-you notes. You can telephone your thanks, to be sure, but the written note is the most courteous way to express appreciation.

And you may be prompt! For a short note, you may use double cards on note paper. Pen and ink please. NOT the typewriter.

Always be sure to mention the item received, such as "Thank you, Uncle Bob, for the lovely mittens I wore them to the basketball game Friday night and for once, my hands stayed nice and warm."

Or, "Dear Rita: How did you know that sweater is my favorite colour? I wanted to take a bath in it when your package arrived, but I'm conserving myself."

Always use a separate card for each gift. And make it make them as much as possible.

You will want to see examples of more than one note—for week-enders, business, kindness shown, etc.—to see how to write them.

See our Reader Service booklet No. 27, Letters for every situation.

Send 30 cents (cash) for "How to Write Letters for Every Occasion" to The Edmonton Bulletin, Reader Service, 60 Front St. W., Toronto. Please, include with your order a business card.

Mr. and Mrs. Anne R. Nelson who were married recently at the Lutheran Church in Standard. The bride is the former Miss Evelyn Nelson, daughter of Mr. and Mrs. A. Nelson of Standard, and the groom is the son of Mr. and Mrs. J. Nelson of Eder, Man. The couple is living at 1011 114 street.

## Petticoats Swish In Czech Cabinet Industrial Post

By A. J. GOLDBERG

PRAGUE, Dec. 31.—(AP)—The first avian of petticoat politics has been in Czechoslovakia's highest government circles with the election of Mrs. Ludmila Janekova to the post of minister of industry. Now the Communist women deputies are reported just the least bit jealous and waiting one of their number in a cabinet post to watch what the Social Democratic sister aliter.

There are 25 women deputies in the Czechoslovak parliament. The Communists have 13, the Czech Democrats four, the Social Democrats four, and the People's party and the Slovak Democratic party each.

Mrs. Janekova is a 36-year-old widow whose husband was killed in the underground resistance movement during the German occupation. She herself remained in the country after the war, to teach, and then forced into manual labor by the German occupiers. Despite her rigorous experience, she and her son, now 14 and still going to school, emerged unscathed from the war.

## Says Appetite Big Factor In Children's Feeding

By FRANK CAREY

WASHINGTON, Dec. 31.—(AP)—Believe it or not, the creamiest only No. 4 on the dietary list for infants of kids under five.

Given a free choice of diet, says Dr. Harry Bakwin of the pediatric department, New York University College of Medicine, young children rate foods in this order: Meat, butter, fruits, ice cream, milk.

Their attitude toward vegetables "differs just as does adults," he says, and "raw vegetables are often preferred . . . cereal is the most often refused and it may be safely omitted from the diet."

Bakwin discusses the art and science of dealing with cases of "poor appetite" in preschool youngsters in the Journal of Pediatrics.

One of his hot tips to parents: "There should be no insistence on this or that food. The food likes and dislikes of children should be respected just as in adults. Let 'em eat fried or highly seasoned foods, saucy and starchy if they want such," says the doctor, and "food should be prepared interestingly."

Parents should be urged to forget calories, vitamins and minerals and rely on the child's appetite. It is reasonable to assume that a child is happy and content if he is contented with his appetite for some purpose.

May 1946 was the fulfillment of your fondest dreams and desires. May it be a year of good cheer, good health, and much happiness for you and yours. May we assure you sincere thanks for your valued patronage, and we hope to serve you even better in the years to come.

CORNER 3 DRUG STORES

## PERSONALS

Mr. and Mrs. James T. Fontaine who came from Seattle, came to Vancouver to spend the holiday season with their families. They returned to Seattle where they will spend New Year's before departing for Vancouver in early January.

Com. John G. Goss, RCAF, arrived in Vancouver from Boston to spend the New Year holiday with his parents, Mr. and Mrs. A. A. Goss.

Mr. and Mrs. Harris A. McClintock, who were married recently at McLaughlin's restaurant, have returned from their honeymoon trip to Jasper and have taken up residence in Edmonton. Mrs. McClintock is the former Miss Ethel Denning, daughter of Mr. and Mrs. P. Denning.

Mr. and Mrs. Graham W. Curtis and their daughter, Miss Carol Curtis, returned recently from Calgary where they were guests of Mr. and Mrs. J. McAllister.

Members of the A. I. T. Union real estate company entertained for Mr. Nelson Monday at the Crown Hotel at a surprise birthday party. William Nelson, who was master of ceremonies and proposed a toast to Mr. Nelson, who has been in business in Edmonton for 30 years. Mrs. Nelson was hostess and pianist was Mrs. Finlay.

Miss Dorothy Ward is expected to leave during the weekend for Madison, Wis., where she is a student at the University of Wisconsin. She is the daughter of Mr. and Mrs. A. Ward.

## Barbara Ann Award Winner

NEW YORK, Dec. 31.—(AP)—Barbara Ann Scott, of Ottawa, was the winner of one of the ten awards made by Mademoiselle magazine to young women in 1947. It was announced today.

The awards are made each year by the magazine to young women who have made outstanding achievements during the year. Miss Scott was included in the 1947 winners because of her leadership in the world of figure skating. During the year she won the world figure skating championship in addition to the European and North American titles.

Miss Scott was not able to receive her award in person when she was in the United States. She was the youngest of the ten women receiving the 1947 awards from Mademoiselle and was one of the two non-American winners. The other was Miss Rita H. Hau, 24, daughter of the Indian Ambassador to Japan.

## Devoting Life To Social Work

NEW YORK, Dec. 31.—(AP)—The New York Herald Tribune said today that Rev. Elmore Noble, 51, who was rector from 1936 to 1945 of St. George's Protestant Episcopal (Anglican) Church here, has been released from the priesthood to pursue social work.

For 10 months Dr. Noble was senior representative in the American occupation zone of Germany for the American Friends Service Committee, a Quaker organization. He returned to the United States last November and has spoken in several cities on behalf of the Quaker program.

The Tribune quoted Dr. Noble as saying: "I asked to be released from the priesthood of the church in order that I might give the rest of my life to broader social work of a volunteer nature. I am still engaged in the American Friends Service Committee relief work in Germany and I expect to continue that work."

He may have called up Balcan's appetite.

4. Mothers who continue to feed their children after they're able to feed themselves raise another problem. Bakwin says kids like to feed themselves and if denied this they get balky.

His statement at mealtime is "generally overdone." Hence, don't go into excessive anxiety to entice the child to eat.

## Wed at First Baptist Church

Mr. and Mrs. Douglas John Carson, who were married recently at First Baptist Church. The bride is the former Miss Anna Winnifred Carson, daughter of Mr. and Mrs. W. J. Carson of Edmonton, and the groom is the son of Mr. and Mrs. H. H. Carson of Kamloops, B.C. The couple has taken up residence at New Westminster, B.C.

## Jean Arlene Pinch Married At Robertson United Church

Large white chrysanthemum decorated Robertson United Church for the double-wedding, candlelight wedding ceremony Tuesday at 5 p.m. of Miss Jean Arlene Pinch, daughter of Mr. and Mrs. J. E. Pinch and M. Murray Hanna, son of Mr. and Mrs. M. M. Hanna, all of this city. The Rev. Angus MacQueen performed the ceremony.

After the ceremony a reception for 100 guests was held in the Viceroy Hotel, where the bride's table was centered with a bouquet of white roses and white and yellow flowers.

Mrs. G. V. Burnett and Mrs. J. A. Leach poured coffee and Dr. G. V. Burnett presented the bride to the bride.

The couple left for home for a honeymoon in Calgary and Banff. The bride is traveling in a wine-colored suit, winter-white top and blue accessories and a carriage. The groom is wearing a tuxedo and a white shirt.

The bridegroom graduated in mining engineering from the University of Alberta in 1944 and received his master's degree at Queens University in 1945. He is a member of the Zeta Phi fraternity. The bride is a 1945 graduate of the University of Alberta and received her degree in nursing from the University of Alberta in 1946. She is affiliated with Beta Beta Beta.

## To Live in City

Mr. and Mrs. Douglas John Carson, who were married recently at First Baptist Church. The bride is the former Miss Anna Winnifred Carson, daughter of Mr. and Mrs. W. J. Carson of Edmonton, and the groom is the son of Mr. and Mrs. H. H. Carson of Kamloops, B.C. The couple has taken up residence at New Westminster, B.C.

## Swaying Ladder

LANCASTER, Eng.—(CP)—Mrs. Beatrice Parkinson is probably Britain's only woman ladder keeper. Daily she trives and tumbles the huge oil lamps that guide ships off the North Lancashire Coast.

To clean her windows she has to climb onto a tiny platform 30 feet above the boiling sea. "I need to be secured," Mrs. Parkinson said, "but now I've got used to it." Once a week she takes time out from lighthouse-keeping to go shopping — down the town ladder, a short boat trip, away miles in a lagoon to the lighthouse shop, then an eight-mile journey home.

"I'm always glad to get out of the lighthouse-keeping to go home," adds Mrs. Parkinson.

## TENDERS

**For the Sale of Peace River Municipal Hospital District Debentures**

Sealed tenders will be received at the office of the Secretary-Treasurer at the Town of Peace River, Alberta, not later than January 10th, 1942, for the sale of \$60,000 Peace River Municipal Hospital District debentures.

Debtures will be dated as of the appropriate date in 1948, and are payable in (30) equal consecutive or varying installments of principal with interest at a rate not exceeding 5% per annum, payable annually at the Canadian Bank of Commerce.

Tenders should be marked "Sealed Tender for \$60,000 Peace River Municipal Hospital District Debentures."

**C. W. RICHARDSON,**  
Secretary-Treasurer,  
Peace River Municipal Hospital  
District No. 21  
Peace River, Alberta.

England, two in France and one in Argentina.

# Happy New Year!

AS Nineteen Forty-Seven ends,  
We send this greeting to our friends —  
From all of us to all of you,  
Whate'er you are, whate'er you do,  
Where'er you live — from ocean to ocean,  
Prairie farmer or Nova Scotian,  
Here's a New Year's wish for health,  
Happiness, good cheer and wealth!

YES, here's a greeting on behalf  
Of everyone on Eaton's staff:  
From President and all Directors,  
Buyers, salesfolk and inspectors,  
The waitresses who fill your cup,  
The girls who wrap your parcels up,  
The folks who sell you toys and tents,  
And those who write advertisements!

RING out the old, ring in the new,  
We wish the very best for you:  
We wish you seats in trains and trolleys,  
Immunity from human follies!  
We wish you good things for the table,  
(To supply them we're quite able);  
We'll hope for better world conditions,  
With no more threat of atom fissions;  
Prosperity on farm and foundry,  
Scads of soap-flakes for the laundry;  
And a real amelioration  
Of the housing situation!

YES, and in the way of weather,  
We wish you everything together:  
Snow for skiers, ice for skaters,  
Sun and warmth for winter-haters;  
Bracing days for country jaunts —  
An end of shortages and wants;  
And, sure as earth spins on its axis,  
We wish you lower income taxes!

BUT most of all we wish that you,  
Our friends, will have the kindness to  
Accept these heartfelt New Year's greetings  
From your neighbours — down at
